August /September 2017 Back to School Issue

Dear Parents/Riders:

Welcome to all of our new riders and returning riders and families. Are we a riding school, a show barn, or a great place to enjoy the world of horses?

We are all of these. Our riding academy provides riders the opportunity to grow and develop within a well-rounded educational equestrian program. Riders are able to pursue their love of horses, have the opportunity for the world of competition, develop sound horse management practices, and at the highest level, the opportunity to develop into horse professionals through our work study program in partnership with local high schools. Once in our group lesson program, our Level Certificate program assures we teach and your child masters skills through four levels of increasingly more challenging skills. The overall program also helps one to later own a horse or get a job here as a barn worker at age 14 and later, if well through the levels, additional career opportunities are here as an assistant instructor.

Congratulations to:

Kennedy Duff, McKenzie Souder

For passing Level I

Dasha Medina for passing Young Rider Program

Congratulations to:

Morgan Teeter and her presidential Scholarship to Mercer University to study engineering. Morgan does plan on coming back one weekend a month to continue instructing.

Congratulations to:
